

Tuesday 3/17 - 1:30pm

I hope everyone is doing okay. If you remember, I told you in school that all of our communication would occur here on this website – mrromano.com. Please remind your friends in our class. I will be posting more information here every day to keep up moving forward in Earth Science.

I have used the Remind App in the past to communicate with my students.

Please do the following and join our Remind group so that I can contact you more directly

Text to 81010

Type in body of text @ELLEarth

Please spread the word to other people in the class to do this and I will follow up with a message tomorrow morning.

Thank you and be well!

Mr. Romano
