SAFETY FIRST!

Aim / Objective:

General Rules and Procedures:

- 1. Follow all directions carefully. If there is something you do not understand, ask the teacher for help.**
- 2. Perform only those exercises or experiments assigned by your teacher.**
- 3. Never taste anything in the laboratory unless directed to do so by your teacher.**
- 4. Do not eat or drink from laboratory glassware unless directed to do so by your teacher.**
- 5. Do not touch, inhale, heat, or mix any substances in the laboratory unless directed to do so by your teacher.**
- 6. Keep your work area neat and orderly.**
- 7. No horseplay or running in the laboratory.**
- 8. If glassware is broken, notify your teacher. Do not pick up broken glass yourself.
*Broken glass is not to be thrown in the garbage***
- 9. Wear safety goggles when working with dangerous chemicals that might splatter or spill or when using an open flame. Use an eyedropper to transfer chemicals rather than pouring them and risking spillage or splattering. Your teacher will instruct you how to correctly dispose of used chemicals used in the laboratory.**
- 10. Never leave a burner/hot plate unattended at your table. Keep your head and clothing away from a burner flame and tie back long hair.**
- 11. Immediately report all accidents, injuries, or chemical spills to your teacher.**
- 12. Leave your work area in a neat and orderly condition. Return equipment and materials to their proper places.**

Directions:

Using the cartoon on the following page, make a list of as many correct and incorrect safety procedures that are illustrated. You should be able to come up with 5 correct and 5 incorrect procedures.

CORRECT PROCEDURES

1.

2.

3.

4.

5.

6.

7.

8.

INCORRECT PROCEDURES

1.

2.

3.

4.

5.
